Subject: Please end parking minimums
Date: Tuesday, August 10, 2021 9:23:43 AM

Hi

I'm a resident and home owner in Saint Paul and would like the city to end parking minimums. It's a small, easy and critical step toward decreasing the importance of cars in our city and it's critical to increasing the housing stock and decreasing housing prices. The world is burning all around us, we must eliminate our dependence on fossil fuels. We need to return our cities to its residents and visitors...it's time to stop centering cars.

Please end parking minimums!

Thank you!
