Dear Ms. Anderson,

On behalf of the St. Anthony Park Community Council, I am writing to provide the council's input for the Public Storage Site Plan Review. We are concerned about the lighting impact on the residential area.

At the April 12, 2018 board meeting, the SAPCC Board voted unanimously to suggest that the City look at how signage and interior lighting will affect the residences East across 280, and provide daytime/nighttime visual renderings from that location.

Thank you,
--
Kathryn Murray, Executive Director
St. Anthony Park Community Council - District 12
