

Public Hearing Comment for Front Avenue Resolution **PH 23-17**

Greg Fisher (phone call to Public Works 1/26/23)

Address: 318 Front Avenue

Home is located on the south side of Front Avenue. He has issues with walking and losing street parking in front of his home on Front Ave would cause issues for him as he has limited mobility and crossing Front Ave after parking would be difficult. He would like Public Works to consider an alternate layout that would allow him to continue to park in front of his home.

Public Hearing Comment for Front Avenue Resolution **PH 23-17**

Jack Leibman (phone call to Public Works 12/9/22)

Address: 208 Front Avenue

Owner of a duplex located on the south side of Front Avenue. He has concerns with losing parking in front of property as it is currently used by tenants of the building. Concerned that parking removal would impact existing tenants and ability to attract future tenants to the building. Would like Public Works to consider alternatives to accommodate parking in front of residence.
