I have known Victor Clement since 2018. We are friends and he's like a brother. Anytime I needed him while I lived at Roseville, I will rush to meet him at his home at the above address. Equally we could spend hours unend either in the morning, afternoon, evening or night there.

For most part of it, he lived with his nephew there. Early February 2022, when I had some challenges in my own home he offered me free accommodation. I have been there since then until that fateful day of 03/21/22 when I left for work as usual in the morning only to comeback later in the evening to discover I have been rendered homeless.

What an embarrassment it was as I was deprived of all my personal belongings as well as food.
