

## Rain Barrel and Unconventional Garden Bed Petition

We, the undersigned, support the garden work done by the Peltons at 1696 Juliet Ave.

- We *do not* believe what they are doing is a visual blight in any way.
- We *do* believe that it enriches the neighborhood and adds visual interest.
- We *do* believe the work is clearly aimed at protecting our regional environment through rainwater catchment and local growing, an aim that the city of St Paul purports to have.
