Hello this is an attachment for my last one i just wanted to say 1 i do appreciate you giving me the opportunity to show how much this property means to me and what i would go threw to save it i don't have the help i never had the help from my landlord everything i do and everything I've done to get this property up to code cleaning up without the help of any agencies and I'm not saying that for no other reason but a least to be given the the proper time to find another place to find right now I'm on house arrest and i won't be off until January 17 if i don't have a place to live i will be sent to prison and all that i did will be for nothing all i wanted was is to be happy in my home but since that is not an option please grant me some time i was shot last year and i have my 5 month old granddaughter and my 19 year old daughter and it very overwhelming to think that I'm goin to be homeless in the middle of the Winter after all that I've done I've literally been working day and night to get the house in order just to have it taken from me so please find it in your heart to give me some time because I'm on house arrest i can't really do anything until i get off house arrest  
Thank you for your time and understanding,  
Lialoni Hutchinson
