Gateways for Growth (G4G) Initiative

- The Gateways for Growth Challenge (G4G) is a competitive opportunity for localities to receive research support and technical assistance from the [American Immigration Council](#) and [Welcoming America](#) to improve immigrant inclusion in their communities.
- In the fall of 2020, Saint Paul and Minneapolis awarded separate data reports and technical assistance.
- In the spring of 2021, each City initiated a community engagement process.
- Engagement was initiated during the height of the Pandemic and in the aftermath of the George Floyd killing.
- Engagement participants expressed frustration - “over-engagement” without ever seeing input reflected in a final product and skepticism whether initiative would result in tangible outcomes.
- Each initiative invited same organizations and communities to participate thus doubling the time commitment for stakeholders who ultimately formed the Advisory Committee.
- Leaders' teams recognized and established one joint Twin Cities Advisory Committee - more efficient use of stakeholders' time and talents to develop recommendations in this report
