Attachments: Work Plan.xlsx

I am attaching an updated spreadsheet which reflects the corrected Contractor Proposed Work Plan we discussed on June 11th in regards to the property located at 1565 East 7th Street.

Per your requirement, roofing and plumbing work has been moved forward to our July 31st due date.

In addition to highlighting the work which has already been completed, I have also updated the roofing budget, as it now includes the \$1000.00 insurance deductible.

I have spoken with our roofing contractor, who has stated that he will be re-inspecting the property for hail damage to the siding, gutters, and window wraps, as our claim for hail damage to the roof has already been approved. Should he find there is sufficient damage for another claim, I will provide you with updated work plans reflecting this.

I believe my father stopped by your office yesterday afternoon to provide you with account documentation for the joint restoration fund, and well as a letter assigning me as project manager.

Please let me know if the documentation provided is not sufficient, so that I may make sure you have all that is required by Monday, as we agreed.

Thank you!
