Subject: RE: Trees affected by garage fire at 792 Rose

Hi Joe,

I went out to this property on Friday. I marked two Siberian elm trees (37" and 18" diameter) that were significantly affected by the fire. I did my best to measure for the property line. Even though these trees are west of the wooden fence, it appears the majority of the trees are on 792 Rose Ave E. If it sounds good to you, I will enforce under Ch. 175 of City Code and send a letter to the property owner.

I spoke with the neighbor, Elizabeth, and informed her of the above information.

Thanks,
Karl

Subject: Trees affected by garage fire at 792 Rose

Karl there was a fire that totally destroyed a garage at 792 Rose Ave.. The neighbor is concerned that the trees were on fire for a time being and that they might be damaged integrity wise and there are powerlines going through them. Do you think someone could take a look and make an assessment as to whether they need to be taken down? Thanks

Joe
