Hello. Good morning. My name is Frida Alvarez. First name, Frida. Last name, Alvarez from 1021 Cook Ave East in Saint Paul 106. I'm calling regarding the ratification of assessment on my home file 2202 LD SRP assessment number 224002. I'm calling to object. The assessment for the \$5030. I was told that I was a part of a grant program to cover the installation of copper from lead pipes in my home. If I'm able to provide e-mail evidence, please let me know who I can send that to. I see the general e-mail here, but there's someone more specific to send it to you. I'd appreciate that. And yep, I just I was told that I was going to have this paid for, and one of the employees who was working on my house when they were doing the city portion of replacing the lead lines with copper, they told me that the city was going to be getting hundreds of thousands of dollars to replace lead lines all over the city over the next thirty years. So I don't understand why I have to pay when there should be money coming in from either the state or the federal government. They didn't specify from who, but they told me that over the next thirty years that there would be this assistance from the city or that the city would be doing this on the public side of replacing the lead lines to copper. So thank you for listening to my objection. I appreciate your time. Again. My name is Frida Alvarez, and you can contact me at 612-437-1223. Have a great day. Bye
