FIRE CAUSE CLASSIFICATION:	Accidental Juvenile/Incendiary Incendiary Child (under 10 years old) Natural Undetermined Under Investigation		
SYNOPSIS:	Saint Paul Fire Department was dispatched for a report of a garage fire. Fire companies witnessed fire coming from the rear of a detached garage structure. Firefighters performed extinguishment and overhaul. Interviews conducted on-scene with the occupant revealed she observed smoke and flames coming from the garage and had not been in the garage. Investigation revealed charring and mass loss to the incident garage within a walled off room of the garage and roof area. Investigation also revealed charring to the fascia of the exposure garage. The ignition source was most likely heat of electrical resistance. The first fuel ignited was most likely combustible building materials. The act that brought these two together was most likely an electrical malfunction. The classification		

	of fire cause is accidental.
