

and

WHEREAS, the Ford Site plat effectively divided the Ford Site into 36 development parcels and also dedicated to the public various land parcels deemed necessary for public rights-of-way and park and open space areas within the Ford Site as envisioned under the Master Plan; and

WHEREAS, with the adoption of the Master Plan, Ford District ordinances and Ford Site plat, the Ford Site master developer, together with its sub-developers, have begun to submit Ford Site development proposals which were reviewed by City planning and zoning staff against the Master Plan standards and the Ford District ordinances; and

WHEREAS, City planning staff review of the initial development applications caused them to determine that the regulations of Lot Coverage by Open Space and Green Roof Areas as Open Space, envisioned under present Master Plan standards and their associated Ford Site ordinances, presented difficulties in evaluating and applying them to development applications and, with the certain knowledge that future development applications will be forth coming, planning staff recommend that amendments to these standards be considered in light of these difficulties; and

WHEREAS, for example, City planning staff note that it is difficult to implement the Lot Coverage by Open Space and Green Roof Areas as Open Space concepts under the Master Plan with other Master Plan area regulations which are applicable to building setbacks, floor area ratios, lot coverage by buildings, and design standards intended to set a “soft edge” between private buildings and public sidewalks in order to create a comfortable and attractive pedestrian environment within the Ford Site as envisioned under the Master Plan, with actual site-specific conditions like parcel size or topography; and

WHEREAS, City planning staff further advise that the Master Plan’s vision for Functional Green Roofs as a means to improve stormwater management, reduce greenhouse gases, reduce urban heat island effect, and promote sustainable and efficient energy use is compromised by a lack of specificity in the language of the Master Plan for calculating bonuses; and

WHEREAS, on May 5, 2021 the City Council passed RES-21-686 asking Planning Commission to initiate a study of amending the Ford Site Master Plan as it relates to Open Space Lot Specific Standards; and

WHEREAS, the Comprehensive and Neighborhood Planning Committee, on June 2, 2021, forwarded its recommendation to the Planning Commission for initiation of a zoning study for Zoning Code amendments corresponding to proposed amendments to the Ford Site Zoning and Public Realm Master Plan;

WHEREAS, the Planning Commission held a duly noticed public hearing on July 23, 2021 and the Comprehensive and Neighborhood Planning Committee of the Saint Paul Planning Commission, having reviewed the public hearing testimony and a memorandum containing analysis provided by staff, provided a recommendation for consideration by the Saint Paul Planning Commission; and

WHEREAS, on August 20th, 2021 the Planning Commission, based upon the Comprehensive and Neighborhood Planning Committee Committee’s August 13, 2021 memorandum and all the public testimony received in response to the proposed Master Plan Amendments and recommendations regarding corresponding amendments to the Ford District Zoning, all of which are incorporated herein by reference; and

WHEREAS, the City Council, based upon the recommendation of the Planning Commission, as substantially set forth in the Planning Commission resolution #21-41 and the report of commission staff dated August 20, 2021, both of which shall be incorporated herein by reference; and

NOW, THEREFORE BE IT RESOLVED, after considering all public testimony, that the Saint Paul City Council hereby adopts the following amendments (unless otherwise stated) to the Master Plan for use with the Ford

zoning districts for the Ford site redevelopment area.

1. Remove the term “Open Space” from the Master Plan as it pertains to privately owned development parcels and lots and remove the definition of Green Roof Areas as Open Space. This amendment would not impact publicly owned park and open space parcels and lots dedicated to the City via the November 20, 2019 Ford plat.
2. Add the definition for “*lot coverage*” from the Zoning Code to Master Plan Chapter 5 entitled “Building and Lot Terminology.”
3. Amend the Master Plan’s current incentive language for Green Roofs in Chapter 4: Zoning - Districts and General Standards, as follows:

Lot Coverage Bonus for Green Roof Areas

Projects that provide Functional Green Roof can receive a 1% lot coverage by buildings bonus for every 1% of Functional Green Roof provided by the project, up to a maximum 10% lot coverage by buildings bonus.; and amend the definition of Functional Green Roof as follows:

Functional Green Roof Area shall be defined as area atop ~~surface on~~ a building, open to the sky and air, ~~which is surfaced~~ with soil and living plant materials for the purpose of retaining rainwater and absorbing heat from sunlight. The depth of substrate and planted material shall be at least two (2) inches.
