Subject: Objection license number 20210000674; 455 7th St W
Date: Wednesday, June 2, 2021 5:36:19 PM

I am writing to express my objection to the above referenced license application. My objections are as follows:

1. We have multiple businesses selling liquor/beer for on site consumption within 1 block of the property and don't need more. Other businesses would provide a better balance of goods and services to the area.
2. There isn't parking on site or inadequate parking on site to support the business and I am unaware of a plan by the business to provide employee and customer parking. As a result parking occurs on surrounding residential streets that are burdened by traffic and noise, which in this case would go until 12:30 am. The business needs a plan for employee and customer parking that doesn't involve the residential streets before a license should be issued.

Thank you for your attention to this objection.

Sincerely,
Cathy Fletcher
