

Utility is looking to hire IS manager Hydrant and gate get replaced

The utility is looking to hire a new IS manager. This posting is open only to current, certified, classified city employees.

This person performs advanced-level professional and supervisory work in managing and coordinating information services. Participates in the preparation and monitoring of the section budget.

Directs and supervises the selection, installation, and maintenance of hardware and software. Manages department technology operations by providing direction, training, and guidance to technology project managers, team leads, and technical staff.

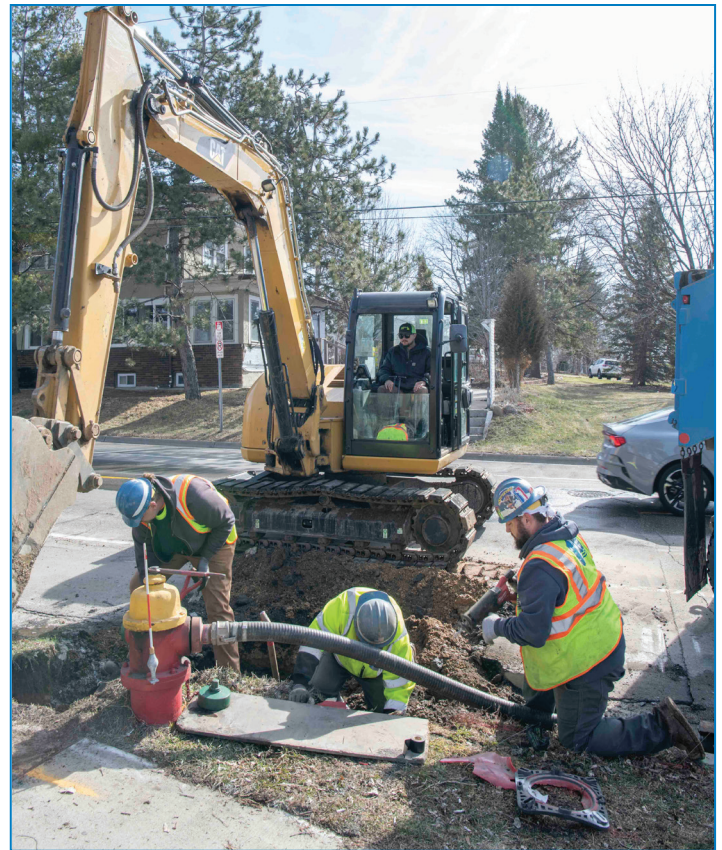

Coordinates technology efforts that involve analyzing and organizing efficient, cost-effective procedures, establishing standards and best practices, setting priorities, administering information technology security, and formulating goals and objectives. Reviews, prioritizes, assigns, and coordinates work requests for information technology projects from across the utility.

Requirements

- A bachelor's degree in computer science, information systems, mathematics, business administration, or a closely related field.
- At least five years of progressively-responsible administrative and supervisory experience, at least three years of which must have included planning, directing, and implementing information technology programs and projects.
- No substitution for education.

Apply online at stpaul.gov/jobs by 4:30 p.m. on May 4.

For more information, contact Chrissy Hauge at 651-266-6512 or email jobs@stpaul.gov.

Crews work to replace a hydrant and gate at Jackson and Wheelock on April 19. From left are Aaron Erickson, Matt Schmidt, and Chris Cullen, water utility workers. The HEO is Jake Massiello. Not pictured are truck driver Jerry Lucker and supervisor Brian Gomez.

Staffing change announced

Debbie Szulim

Debbie Szulim has taken on a new role in the distribution division working in dispatch.

She started working in the area as of April 9.

Debbie previously worked in engineering.

Please congratulate Debbie on her new position when you see her.

Carol Kaszynski retires

Utility posts opening for water civil engineer I

Photo from left, Jodi Wallin, Dolly Lee, Sandy Kimbrough, Martha Burckhardt, Dolly Ludden, and Carol Kaszynski gathered for a holiday photo in 2021.

Carol Kaszynski, IS manager, accepts the Andrew Sullivan Leadership award for her role on the Water Utility Technical Training program advisory board in Sept. 2021 in Duluth.

Carol Kaszynski, IS manager, has retired from the water utility.

Her last day was April 15.

Congratulations to Carol on her retirement.

The utility is looking for a civil engineer I. Candidates hired now will be involved in the startup and operation of a brand new water treatment facility slated for commissioning in 2025-2026.

The candidate performs entry-level professional engineering in the investigation, design, inspection, operation, construction, or maintenance of SPRWS projects. Assist with reviewing plans submitted by SPRWS staff and contractors, conducting research, administering contracted projects, preparing reports, and maintaining records. Coordinate with SPRWS staff external agencies on related public works projects. Respond to and resolve internal and external customer complaints. Perform related duties and responsibilities as assigned.

Requirements

- A bachelor's degree in civil engineering. No substitution for education.
- Must possess and maintain a valid Minnesota class D driver's license, or equivalent out-of-state driver's license.

Apply online at stpaul.gov/jobs by 4:30 p.m. on May 2.

For more information, contact Michelle LeBow at 651-266-6519 or email jobs@stpaul.gov.
