Hello,

The city garbage removers took the personal belongings of my tenant, it was not garbage. See attached screenshots of texts between my tenant and I on Nov 24th. They took her hose reel, wooden green flower bed, and tarp for collecting leaves from her yard. Note that the neighbor next door at 703 Bedford Street did not have garbage service set up so there were no trash bins for their tenants for over a month (since end of October). As a result there was a large buildup of garbage on their side of the property. So maybe the city got a little over-zealous in taking away stuff, given the garbage buildup next door. But I should not be billed for this mistake. The tenant was very upset and thought someone had stolen her belongings.

Laurel

709 Bedford St.email

...the neighbors had their trash over here and we cleaned it up and placed it back over there 😞, they have no bins We just got over covid and was cleaning the yard and putting things away and came out to notice it gone..

Nov 24, 1:04 PM

I just wanted to make sure maintenance didn't come for the leaf waste bags or table and take other things but I doubted they would do that anyways

Nov 24, 1:05 PM

No one should be taking your stuff. I will let the owner know that the garbage bins are gone. They clearly haven't set up new service in their name yet.

Thank you
