<b>Project</b>	<b>P.O. No.</b>	<b>Terms</b>

Description	Qty	U/M	Rate	Total
We did the original installation on this project and it was inspected and to code when done. We have been contacted to look over and do needed repairs as per the fire department notable a leak on the riser and some one added a pipe on the blower drain which should be a capped and only opened to clean or drain blower when needed being piped into a barrel allows exhaust air to blow into the barrel which is not part of the original design. We will pull needed permittees if any for the corrections require one.			0.00	0.00
