The Economic Status of Minnesotans 2018

Children in poverty, Minnesota, 2012-2016

we count mn
CENSUS • 2020

The 2020 Census is right around the corner

Census counts guide the distribution of dollars

- **15 billion** federal dollars distributed to Minnesota each year on the basis of census data
- **\$2,796** per person is allocated by the federal government to Minnesota each year (that's about **\$27,960** per person over the decade)

An undercount would disproportionately impact **our communities.**

An undercount results in the **misallocation of funds**, depriving our community of the resources they deserve.
