I wanted to comment on the hiking of your property tax. My last name is Steiger S T E I G E R first name is Katerina K T E R I N A. And my phone number is six five, one seven, seven, one five, five three seven. So I think you have a lot of waste in the schools. Like, I was working as an election judge over the Arlington Hills Library, and I was watching the kids in the back have their dinner that's given to them for free. And so one kid took a bite, maybe two bites of this lasagna, and then just dumped it into the trash. And I hear they do this in the regular public schools all the time. So you just really cater to these kids, and these kids dump in the trash. When I was a child, this never happened. And I did not grow up in an area that was, you know, affluent and there was no food for kids. So you're just throwing a lot of money out and wasting it on these kids that wind up with the stuff winds up in the trash. And I think it's just really unfair that this is being done as it is. And then you're socking it to the property owners. Thanks for listening. Bye. Bye.
