Hi, this is Carol Murtaugh at 833 Margaret St. in Saint Paul regarding the Sound Level Variance Center for Broadcast Journalism, 7th St. Live, which is scheduled for I believe August. I'm looking for that August 10th. OK, Yeah, OK. I'm calling because I'm going to request that you not allow this variance. Our neighborhood is very noisy anyway with traffic, planes, racing cars, sirens constantly and we don't need any additional volume or noise for this event. So that's my comment is please no, do not allow the variance and thank you for your time. Here's my number in case you need to reach me 651-771-1104. Thank you.

You received a voice mail from [MURTO CAROL](#).

Thank you for using Transcription! If you don't see a transcript above, it's because the audio quality was not clear enough to transcribe.
