Mai,

Thank you for reaching out. I am fine with issuing the certificate of occupancy with corrections on the stucco to be made.

-Ryan

Mai,

Hi, I'm copying Ryan Tessman who is now the Fire Inspector for this area. Yes, we would be fine to issue a Fire CofO as an "approval with corrections" if we can confirm that all work other than the exterior stucco is completed.

I haven't had a chance to talk to Ryan about this yet, he would be the one that's more familiar with the scope of work here to confirm if it's all covered by the permit or if he would need to set up a separate re-inspection himself before signing off on it.

Thanks,

Mitch Imbertson

Hello Mitch and Jack,

Mr. Gary Jager reached out to our office to request an additional extension beyond April 25. His contractor indicated that with the weather, he won't be able to do stucco repairs until warmer weather. Per Don Wilken, he won't finalize permit until done. Is there to issue Fire C of O approval with corrections?

Morning Mai,

We do not issue a Code Compliance Certificate. Because it is only a VB 1 we just final out our permits when completed. You may want to check with Jack Toeller (Fire) to see if he needs to issue one.
Have a great weekend

Don

Great. A dumb question. Is there such a thing such as issuance of Certificate of Code Compliance with correction since the stucco is outside?

Good Morning Mai,

The only thing that is left is the stucco repair.
Inside the house all work was completed.
The building permit is still open along with the stucco permit to ensure that the outside is totally completed before I sign off.

Thanks

GM Mai,

Yes this one, being VB1, will be in Don's court. I will defer to him.

Hi Clint,

Are you the building inspector for above property or is Don Wilken for building and stucco repair. Owner requested extension beyond April 25 (recommendation by Marcia) because his contractor said stucco cannot be done until warmer weather which may pass the deadline. Is there anything on the building list that still need finalized or just the stucco left?

Marcia,

Gary Jager is requesting an extension beyond the April 25 for this vb fee appeal. His contractor has to make a minor correction related to stucco patching which his contractor says it can't be done until the weather is warmer. And building inspector won't sign off until this is done. He said everything inside is done.

03/15/2024: Final Inspection - Corrections Required. 3-14-24 Detectors are ok.
Still need to final out Stucco permit.

Don Wilken is the stucco inspector.

Mai
