---

Basement bedroom - No egress window, It does have a door that goes to a stairway that goes directly out the rear side of the house. It also has No heat in the room but it does have a hot water heater in the closet.

Main floor looked ok.

2<sup>nd</sup> floor has a bedroom with No heat in the room rear side of the house. Bathroom has questionable height problems.

I will send you pictures of the place that I took.

I will also send you the other trades findings.

Mike

The Most Livable  
City in America
