**Subject:** Tax increase for day Care

**Think Before You Click: This email originated outside our organization.**

I heard today that the Council is voting on a proposal for a property tax increase to pay for day care for poor people. I want you to vote against it unless there is a work requirement for eligibility to receive it. If you don't it will simply be another giveaway to people who don't want to support themselves. People who want the taxpayer to support them any all of the children they want to bring into this world at the expense of the taxpayers. You may want to deny that but it is the truth.

**If you don't vote for a work requirement and you choose to vote for this property tax increase you have lost my support in the election!**

**Subject:** RE: Tax increase for day Care

Again, I don't see any requirement for people to have to go to work and work to get off public assistance. This is just another scheme to tax the working people of this city to give another free ride to the lazy pukers who are nothing but a burden on society.

I would have no problem with it giving subsidies to people who are working but are low income and consequently struggle with child care costs.

If Nelsie supported this as written it is time for her to resign! She is not doing anything for the taxpayers of this ward!
