This is now the third night that I have observed this happening and so it seems that Billy's does not have a handle on how to run their business without causing problems.

In our experience, they used a combination of tables and chairs placed in front of the doors. When we mentioned this concern to server, he said they do it every night and it is not exit because there is not an exit sign present above the door. This is the room next to their patio which has a fire place going and the only other door leads back into the main restaurant area. Not only was the concern not address further, another staff member came up and moved the table and chairs to better block it.
