I spoke to the contractor who did the work his name is Dan he's the best guy Restpro has. He remembers it distinctly and he even drove by it a few minutes ago and told me that his date is still on the garage door and the doors that he secured. He secured the front door the interior screen door the overhead garage door the garage service door and the back door. He didn't get out of the car to take pictures because he remembered it was a druggie house and he didn't wanna walk up to it. I hope this helps.
