Contractor shall commence work under this Contract on or before November 15, 2018. Contractor shall be deemed to have substantially commenced work when Contractor moves equipment onto the jobsite. If Contractor fails to substantially commence work within 30 days from the approximate date of commencement, Owner may delay the succeeding payment due to Contractor for a period of time equal to that of the delay in commencement of work. Allowance in approximate commencement and completion dates shall be made for any delays attributable to circumstances beyond Contractor's control.

3. Drawings, Specifications, and Permits

The project will be constructed according to the drawings and specifications contained in Schedule A, incorporated into this Contract by reference, which have been examined by Owner and which have been or may be signed by the parties to this Contract. Unless otherwise specifically provided in the drawings or specifications, Contractor will obtain and pay for all required building permits and Owner will pay assessments and charges required by public bodies and utilities for financing or repaying the cost of sewers, storm drains, water service, and other

utilities including charges for sewer and storm drain reimbursement, revolving funds, hookup, and other similar charges.

Owner will locate and point out the property lines to Contractor, and will engage a licensed land surveyor to provide boundary stakes if Owner is in doubt as to property boundaries. Owner assumes all responsibility for the accuracy of the boundary markers. Owner shall give copies of any restrictions, easements, or rights of way to Contractor before work is commenced.

Unless otherwise specified, work does not include any changes or alterations from the drawings or specifications that may be required by any public body, utility, or inspector. Contractor, at Contractor's option, may alter specifications only so as to comply with requirements of governmental agencies having jurisdiction over same. The cost of any alteration undertaken to comply with any such requirements shall be in addition to the Contract price specified herein.

4. Property Lines

Unless otherwise specified, Owner will provide all water, sewer, gas, and electric utilities from the point of entry at Owner's property line or, if metering devices are required, to those devices. In compliance with federal and state law, Owner agrees to make drinking water and toilet facilities available to all workers or to compensate Contractor for the cost of rented facilities. Contractor shall be responsible, at the end of every workday, for storing all equipment and materials in the facilities provided by Owner. Contractor shall not be liable for damage to driveways, walks, lawns, shrubs, or other vegetation by movement of trucks, workers, equipment, materials, or debris.

Contractor shall keep Owner advised as to the hours during which work is scheduled to be performed at the jobsite.
