This needs an emergency removal. We need authorization from Magner.

Good morning.

SPFD called DSI to assist with a tree that fell on a building.

A large branch is suspended by a wire that was supporting the tree previously and could fall anytime.

Jim Perucca is still on scene and is cordoning off the area and making attempts to contact the homeowner.

Steve is it possible to do an emergency abatement on this today. Otherwise we will call for snow fencing.

AJ
