Subject: EV Charging Zoning Study
Date: Monday, March 4, 2024 3:55:24 PM

Hello-

I live in Ward 1. I'm wondering what the plans are, if any, to support EVs that are not passenger vehicles. I'm specifically thinking about bikes. As more people bike, we will need more parking for bikes and more EV charging for bikes. The [zoning study](#) doesn't mention bikes or bike parking at all. It's not clear if that's because bike parking and bike charging are covered somewhere else or if there has been an oversight with respect to bike parking and charging.

Yours,

Laura Norén
