Re: 594 - 596 Reaney Ave.

Dear Property Owner,

The above referenced property is located in an R4, single-family residential zoning district. Under this zoning classification, the previous use of the property as a duplex was considered a legal nonconforming use; legally established but not conforming to the current zoning regulations. The structure has been on the vacant building list for more than one year. The Saint Paul Zoning Code Sec.62.106 (h) states that when a legal nonconforming use is vacant for more than one year, it cannot be reestablished with a nonconforming number of dwelling units with two exceptions:

1. If the Planning Commission approves a Reestablishment of a Nonconforming Use Permit.
2. If the building is reestablished at the number of units for which it was originally constructed provided that it has not been physically converted to a fewer number of units. The zoning administrator shall determine the number of units of the time of original construction by any of the following methods: an onsite inspection, building permit records, county assessor records, or similar public records.

A code compliance inspection was conducted by Jim Seeger, a building inspector with the City of Saint Paul Department of Safety and Inspections. Based on city records and Jim's professional opinion, the building was constructed as a duplex. Accordingly, I am approving the reestablishment of a nonconforming use as a duplex under Sec.62.106(h).

Anyone affected by this decision may file an appeal within 10 days from the date of this letter.

Sincerely,

Yaya Diatta
Zoning Administrator
