Dear Property Representative:

Your building was determined to be a registered vacant building on March 17, 2015. Since certificates are for the occupancy of buildings, it has become necessary to revoke the Certificate of Occupancy.

Saint Paul Legislative Code provides that no building shall be occupied without a Certificate of Occupancy. In order to re-occupy the building, the following deficiencies (if applicable) must be corrected and a complete Certificate of Occupancy inspection will be required.

#### **DEFICIENCY LIST**

Work being done requires a permit. - No permits have been obtained for the recent renovations of home. Due to the scope of the work described by the owner during inspection permits are required for all electrical, mechanical, warm air, and plumbing systems of the home. A building permit is required for the installation of insulation, appropriate vapor barriers and sheet rock.
2. SPLC 34.11 (6), 34.34 (3) - Provide service of heating facility by a licensed contractor which must include a carbon monoxide test. Submit a completed copy of the Saint Paul Fire Marshal's Existing Fuel Burning Equipment Safety Test Report to this office.
