Subject: Cleveland Avenue bicycle lane proposal

Hello,

I'm a resident. The current proposal for adding bicycle lanes concerns me greatly, as it makes no allowance for the residents there. Unlike other residents of Area 16, we have no option of off-street parking. Parking in this vicinity is already a challenge, and removing permit parking between Marshall and Dayton will have a severely negative impact on myself and others.

Please continue to allow permit parking on the west side of Cleveland between Dayton and Marshall as it currently stands. I love where I live, but having that banned will make staying there untenable. Thank you.

Lucas Nelson
