Subject: objections of license application #20140001008

To Whom It May Concern:

I have several concerns about the new business on 472 Snelling Ave S. I have 2 concerns. The first is parking: Where is all the parking for the customers going to occur? The overflow parking should not be the neighborhood streets.

The second concern is the closing hour and noise. In the past customers have come out of the near by establishment after drinking. Customers are intoxicated and loud. I have seen them urinate on the lawns and wake up to empty beer bottles and cans on the lawn, street and alley.

Thank you for your time
