It should be just one small cart. They were supposed to have a UDRF set up starting in July.

Thanks Chris! I assume that I should create a TA file for this for the upcoming hearing, correct? If so, I will recommend reducing the assessment from \$220.97 for two medium carts to \$180.43 for one large cart and one small EOW cart.

Here is the justification for the assessment adjustments.

Hi Mary,

The 65 gallon cart was supposed to be switched out to a 32 EOW in July. We sent this over in the 7-11 Legislative hearing follow up document. Do you know if this was switched out?

He should be billed for a small EOW cart.

This is so totally my fault - I must have gotten something from the city back in November and I had one of his 64 gal trash carts removed (did he say he has a 35 gal EOW cart- because I don't show that he ever had one) back in November. So I'll adjust his current invoice to reflect a 1-64 gal trash and you can update the assessment on your end for the August & Sept portion of his 7.5.19 billing and I will fix our end.
