Subject: noise variance hearing

I live at 79 Western Avenue N in the Commodore and I have no objection to the event or the noise needed for this event. Thank you giving us the opportunity to participate.

Subject: Written objection-Team Ortho sound level variance

Attention: Barb McMonigal-St Dennis and Ricardo Cervantes, Director

I am a resident at 2xx Summit Ave. I have spoken twice with Liz Xiong in Marketing and Outreach about accommodating this race operator and inconveniencing those whose homes and lives are affected. She admitted there have been concerns expressed by residents.

Team Ortho has had complaints lodged against it, and serious concerns about it's transparency as a non profit, behavior of it's director, and the charitable or other benefits provided by this organization.

My questions: I would like to know the revenue obtained by the City of St Paul with this race. I would like to know who is analyzing the costs and benefits of these events taking place in residential neighborhoods. I would like to know the other residential venues which are permitted to be used. I would like to know how many events are permitted in one year in one residential neighborhood.

My objections to the specific variance: 1. Noise disturbance to those who live here 2. Merit of the race operator and organization

General objections: See my questions above

Thank you and I will look forward to your answers.

Kathy Schubert
