17 APC 15-5

Public Hearing to consider the appeal of Friends of the Mississippi River of a Planning Commission decision granting a height variance for the Shepard Development LLC mixed use development at 1465 Davern.

*Josh Williams, Planning and Economic Development (PED), gave a staff report on the variance application and appeal. He reviewed the hearing and appeal dates, and described the project. He showed an aerial map of the area within the Mississippi River Corridor Critical Area, and said the height limits of the site were regulated by the underlying T3 zoning and RC3 overlay. He said the base height allowed without a conditional use permit was 40', but the Minnesota DNR was currently studying new rules for the Mississippi River Critical Area to replace those stemming from the executive order from 1979. He said the most recent draft of the new rules was made available in December, and staff was lead to believe the DNR would be proposing a 65' height limit for the area of the proposed development with the possibility of going taller with a conditional use permit.*

*Appellants:*

*Whitney Clark, Executive Director of Friends of the Mississippi River (360 N. Robert Street), said the height variance did not pass the findings of fact test in three ways. He said the variance was not in harmony with the purposes and intent of the zoning code, was inconsistent in both letter and spirit with the Comprehensive Plan, and would alter the essential character of the surrounding area. He displayed photographs to support his points, and noted the historical and national significance of the site and the viewshed impacts of the proposed development. He said the Friends of the Mississippi River respectfully asked the Council to uphold the appeal and deny the variance request, to require view impact studies to ensure a development is built to fit within the surrounding topography, and to ask for mitigating concessions from the applicant if a variance were to be granted in the future.*

*Connie Barry (1800 Graham Avenue), representing Friends of Shepard Davern LLC, said they were very much in support of the appeal and had submitted a petition with over 200 signatures to the Mayor and Councilmember Tolbert, but it was not taken into account by the Planning Commission. She said their support had gone beyond the neighborhood and they'd formed Friends of Shepard Davern LLC and hired a land use attorney. She said a letter written by the attorney was part of the public record. She said the attorney's letter stated that a variance request must be predicated on practical difficulties in meeting ordinance standards but economic considerations alone did not constitute practical difficulties. She said the proposed height variance was inconsistent with the Comprehensive Plan and therefore with Minnesota law, and the developer had not shown that practical difficulties existed. She said the variance ignored years of study by the Shepard Davern Task Force leading to the T3 zoning adopted by the Council just three months ago. She said the Friends of Shepard Davern asked the Council to uphold the appeal and deny the variance, but they would support a 55' height consistent with the T3 zoning.*

*Jennifer Sorenson, Minnesota DNR area hydrologist (1200 Warner Road), said the DNR's review of the variance was to recommend denial based on the extent with which it deviated from the City's River Corridor Overlay District Zoning Code.*

*Joe Kolar (1918 Saunders), board member and secretary of the Highland District Council, said the Highland District Council supported the appeal. He stressed the importance of complying with the height limits within the Mississippi River Critical Area as set out in the recently approved updates to the Highland Park Neighborhood Plan Summary. He said concerns raised at community meetings were related to the height and mass of the proposed building in proportion to neighboring properties, obstruction of light and views from neighboring properties, anticipated increase in traffic and parking issues, and the uncertainty regarding the impact of future development on the site. He said the Highland District Council supported the positive aspects of the proposed development and would consider supporting a height variance of a lesser extent.*

*Shirley Erstad (1660 Laurel Avenue), Executive Director of Friends of the Parks and Trails of St. Paul and Ramsey County, said the organization was founded 30 years before in response to a development proposed at Crosby Regional Park. She said granting the variance currently before the Council would substantially alter the character of that area of the river corridor. She said the variance was not consistent with the Comprehensive Plan, and granting it would invariably set precedent for projects in the future.*

*Rory Stierler, Mississippi National River and Recreation Area (111 E. Kellogg Boulevard), said Congress had established the National Park to protect and preserve the unique values of the 72 mile corridor through the Twin Cities. He said the site of the proposed development near the confluence of the Mississippi and Minnesota Rivers, Fort Snelling, and Mississippi River Valley, was culturally, historically, and geographically significant. He said communities that preserved their values thrived.*

*Applicant:*

*Chris Palkowitsch (222 N. Second Street, Minneapolis), architect with the BKB Group, thanked City staff for their efforts and said BKB supported staff findings and decisions by the Zoning Committee and Planning Commission. He addressed those items in the appeal they felt were looking to expand the rules and regulations by stretching the interpretations beyond typical findings.*

*Councilmember Tolbert asked why the height of 73.5' was chosen. Mr. Palkowitsch said the hardship they were facing related to the bedrock that was approximately 3 to 4' He said the additional height was to conceal the garage and not have surface parking. He said they were trying to improve the walkability and public realm of the area. Councilmember Tolbert asked what the height would have been if the parking could have been buried. Mr. Palkowitsch said the height would have been reduced 18.5', which was the variance they were requesting.*

*Scott Belsaas (6205 Morningside Circle), Shepard Development, said the only new information was observations from the Friends of the Mississippi, and the other questions from the neighborhood group had been on the table since the project was put together. He said the property was going to be developed eventually, and he the proposed building would make the park more accessible to the neighbors. He said the height variance was an economic issue and was necessary to create the kind of building that would attract tenants. He said it was a very nice building and well-designed by the architect, and would be a wonderful addition to the City of St. Paul.*

*Councilmember Tolbert moved to close the public hearing. Yeas - 7 Nays - 0*

*Councilmember Tolbert thanked everyone for their testimony. He said it was a tough issue and the discussion had been taking place over a long period of time with a lot of community involvement. He said the neighbors were in agreement in their desire for development at the site. He said a neighborhood task force had recently completed*

*an area plan, and he wasn't sure whether the height issues related to the bedrock were brought to the attention of the task force which was unfortunate. He said the Council's role was to look at the Planning Commission's decision in terms of applicable facts and laws, and based on those things he moved to deny the appeal and to modify the Planning Commission's decision based on a few errors. He said the appellant made an allegation about a procedural error which he didn't feel they had standing to do but which would be denied if there was standing. He detailed his motion to modify the Planning Commission's resolutions findings 1, 2, and 6, resulting in a reduction of the proposed building by 13.5'.*

**Motion of Intent - Appeal denied, with modifications to the Planning Commission's decision**

**Yea:** 7 - Councilmember Bostrom, Councilmember Brendmoen, Councilmember Thao, Councilmember Thune, Councilmember Tolbert, Councilmember Finney and City Council President Stark

**Nay:** 0

**Councilmember Thune was excused from the meeting.**

**LEGISLATIVE HEARING ITEMS REQUIRING DISCUSSION**

- 28     **RLH SAO 15-27**     Appeal of Shirley Wyttenback to a Summary Abatement Order at 1053 BEECH STREET.

*Legislative Hearing Officer Marcia Moermond said the issue was a deteriorated parking area. She said some class 5 had been laid down which was minimally compliant. She said the larger issue was drainage, which would probably come forward in separately. She recommended granting the appeal, anticipating that another order would come forward.*

*In opposition:*

*Appellant Shirley Wyttenback said she didn't realize Class 5 wasn't okay, and she couldn't afford anything else. Council President Stark clarified that the*

*recommendation was to grant the appeal.*

*Councilmember Finney moved to close the public hearing and approve the resolution.*

**Adopted**

**Yea:** 6 - Councilmember Bostrom, Councilmember Brendmoen, Councilmember Thao, Councilmember Tolbert, Councilmember Finney and City Council President Stark

**Nay:** 0

**Absent:** 1 - Councilmember Thune

- 33 RLH FCO 15-65** Appeal of Tara Schweiger, Maypop Sales and Services, to a Re-Inspection Fire Certificate of Occupancy With Deficiencies at 2554 COMO AVENUE, BUILDING C.

*Legislative Hearing Officer Marcia Moermond said the issue was a business operating within a warehouse, which was considered a storage use for the purposes of Fire Certificate of Occupancy inspections, which was different from zoning and licensing. She said the business activity had been operating out of these particular spaces in the building for five years and out of the general area for a couple more. She said Fire's concerns were that activities taking place were more than just storage, and licensing was required for some of the activities going on, specifically second hand dealer and auto repair. She said a business statement was developed during the Legislative Hearing process and submitted to DSI, and staff came to the determination that there wasn't a zoning issue, but licenses were needed for auto sales and repair. She recommended that licenses be applied for by June 12 or activities stopped.*

*Roseanne Hope (4999 France Avenue S., Minneapolis), attorney representing Maypop Sales, said they respected the position of the City and wanted to work with the City. She said they had been a tenant there and operating the business for 6 years without additional licenses, and had a good relationship with the inspectors and were always in compliance. She said they were not an automotive garage, but as a tire wholesaler sometimes installed tires for friends and family. She said they could not comply with the requirements for an automotive garage without making significant alterations to the building or relocating. She said they occasionally sold individual tires but were not a retail outlet. She said they were willing to pay the fee for the retail license but didn't want to trigger expensive building alterations.*

*Council President Stark said it seemed straightforward that the activities required licenses, and the options were to either discontinue the activities or get the licenses. He asked whether discontinuing the occasional auto repair would be considered. Ms. Hope said they just received the letter last week stating which licenses were required but were looking for clarification as to how Automotive Garage and Motor Vehicle Parts were defined and whether tires were included. Ms. Moermond read from Maypop's business plan describing the purchase of individual tires, and the City Attorney's comments related to the requirement for a dealer license. Ms. Hope said this was first she'd heard of the City Attorney's comments. She said they were happy to modify the business plan to comply with licensing requirements but they were not a retail operation.*

*Council President Stark moved to close the public hearing. Yeas - 6 Nays - 0*

*Council President Stark asked Ms. Moermond whether it made sense that they had not heard the opinion from the City Attorney before now. Ms. Moermond said that*

*might be the case, but it had been attached to the public record for a week.*

*Council President Stark moved approval of Ms. Moermond's recommendation.*

**Adopted (compliance deadline of June 12 to either apply for licenses or discontinue activities)**

**Yea:** 6 - Councilmember Bostrom, Councilmember Brendmoen, Councilmember Thao, Councilmember Tolbert, Councilmember Finney and City Council President Stark

**Nay:** 0

**Absent:** 1 - Councilmember Thune

**54 RLH VO 15-25** Appeal of Mary Jo Charpentier to a Revocation of Fire Certificate of Occupancy and Order to Vacate at 1551 RUTH STREET NORTH.

*Legislative Hearing Officer Marcia Moermond said the appeal was accepted after the deadline, and there had been two no-show hearings due to illness and misunderstanding, so there hadn't been a hearing. She said photos in the building record showed a sewage back-up in the basement, unsanitary conditions on the upper level, and general dilapidation of the building. She said the original order to vacate was May 4, and the tenant was looking for more time to find someplace else to live. She recommended that the Council go no further than July 1 with an extension.*

*Appellant Mary Jo Charpentier said the photo of broken lock shown by Ms. Moermond was a garage door not included in lease, and the upstairs had been cleaned up. She said she needed more time. She said the bank was it back on August 17 but she probably wouldn't be there that long. She asked for an extension to August 1.*

*Councilmember Bostrom moved to close the public hearing. Yeas - 6 Nays - 0*

*Councilmember Bostrom said the documentation showed that it was in really tough shape; he moved Ms. Moermond's recommendation of a July 1 deadline to vacate.*

**Adopted as amended (July 1 vacate date)**

**Yea:** 6 - Councilmember Bostrom, Councilmember Brendmoen, Councilmember Thao, Councilmember Tolbert, Councilmember Finney and City Council President Stark

**Nay:** 0

**Absent:** 1 - Councilmember Thune

**63 RLH TA 15-255** Ratifying the Appealed Special Tax Assessment for Real Estate Project No. CRT1508, Assessment No. 158207 at 685 VAN BUREN AVENUE.

*Legislative Hearing Officer Marcia Moermond said the issue was a tax assessment associated with Fire Inspection fee, and the substance of the Legislative Hearing was that the reference number on Fire Certificate of Occupancy (CO) orders was not the same as the assessment number on the tax rolls. She clarified the two numbers, and said they never matched. She said the property owner also said he didn't receive the bill and that his wife handled the bills.*

*In opposition:*

*Property owner Leslie Lucht said they were assessed in February 2005. He said he'd had problems with his roof at 685 and been granted extensions, with the inspection cycle finally completed in 2013. He said he was assessed for that property, which he wasn't disputing. He said now this other property was being assessed and he'd never received an invoice for 2014 when the property was re-inspected. He said none of the numbers of the bills he'd received matched up.*

*Council President Stark said the invoice dated November 26, 2014 was in the public record attached to the file.*

*Ms. Moermond clarified the date cycle, and said there'd been lots of reinspections so the previous cycle ended very close to start of the new one.*

*Mr. Lucht displayed an invoice from 2013, and said he still maintained he never received the bill.*

*Councilmember Brendmoen asked whether Mr. Lucht was disputing the amount of the bill, or just saying he didn't receive it.*

*Mr. Lucht said he would have paid the bill if he'd gotten the invoice. He described a previous situation when he paid and the check got lost.*

*Councilmember Finney asked Mr. Lucht whether he felt he should have to pay the whole amount or should be given a break. Mr. Lucht said he felt he should be given a break. He said the City tacked on a fee if the charge went to assessment. In response to a question from Council President Stark, Ms. Moermond said the CO fee was \$200 with a \$155 fee added on. Council President Stark confirmed with Mr. Lucht that he was asking to not have to pay the \$155.*

*Councilmember Thao said he appreciated Mr. Lucht coming to the meeting. He said it sounded like Mr. Lucht was a good landlord and would have paid if he'd gotten the invoice. He said one perspective was that Mr. Lucht would pay the \$355 but perhaps needed need more time. Mr. Lucht said if he had to pay the full amount he would ask for an extension, but he was asking for the \$155 to be waived. Councilmember Thao said if he gave Mr. Lucht a break he would have to give everybody a break and the system didn't work that way. He said he was willing to take off \$50.*

*Councilmember Thao moved to close the public hearing and approve the resolution as amended.*

### **Council Meeting Information**

**The City Council is paperless which saves the environment and reduces expenses.**

**The agendas and Council files are all available on the Web (see below).**

**Councilmembers use iPads to review the files during the meeting. Using the iPad greatly reduces costs since most agendas, including the documents attached to files, are over 1000 pages when printed.**

### **Web**

**Meetings are available on the Council's website. Email notification and web feeds (RSS) of newly released Minutes, Agendas and Meetings are available by subscription.**

**Please visit [www.stpaul.gov/council](http://www.stpaul.gov/council) for meeting videos and updated copies of the Agendas, Minutes and supporting documents.**

### **Cable**

**Meetings are live on St Paul Channel 18 and replayed on: Thursdays at 5:30 p.m., Saturdays at 12:30 p.m., and Sundays at 1:00 p.m. (Subject to change)**
