1758 University Ave.
St. Paul, MN. 55104

September 30, 2013

Elected Council Members,

I will assume that those who vote to ratify these assessment rates believe that our present rules to levy this tax is *Fair, Honest, and does not discriminate*.

I have spoken to many business owners and attorneys about this issue in detail, and they all agree with my evaluation. If a simple person like me can see the unfairness of these taxes I am sure all of you do too. This unfair tax has gone on to long and must be stopped.

I would ask the council NOT to ratify these assessment rates and to stop the increase of these taxes.

We need a strong statement from our council members to show us that You can come up with a NEW fair and non discriminating law of taxing our street maintenance program.

Business owner and resident owner of St. Paul
Nikolai Alenov
