RE: 897 Jessie St. - 3/18/14 fire

I don't have my gold card because before I was told that the assessor's office would be able to ascertain that the house had a fire and was vacant it is being slowly rebuildt and I was told by Dean Johnson Builders in Medina, MN (763-479-4820) that the house would be finished sometime in the winter. Now Mr. Johnson said it would probably be mid January or Fed, 2014 before everything is done.

Now I am told that I have to appear at a meeting on Dec. 2. I live in Zimmerman, MN which is a 150 mile round trip, I am 76 years old and I can't appear in "person". The west end of the house is finished, (worst burn), the sheet rock is ready to go on. If needed, I could take my tent over and set it up in the living room so there would be someone there.

I can't do all of this work myself and have to hire it done. I don't know what else to do. To say that I owe \$1,595 for a vacant house is unbelievable but I will take my tent over and set it up and then call Channel 5 to view the situation.

Sincerely,

Clara Gallagher
