CITY CLERK

Marisa O. Moermund
Legislative Hearing Officer
St. Paul City Council
310 City Hall
St. Paul, MN 55102

Dear Hearing Officer Moermund:

Thank you for your time and willingness to consider my appeal presented on Sept 8. as the file will show. I'm asking for permission to use Class 5 gravel as a parking surface.

I have attached the simple diagram for which you've asked. As Inspector Sealy noted, we do have a boat also and the plan will provide a proper parking pad for the boat also, although I've not been asked to do so.

The surface to be gravelled will be graded at a depth of 2", treated with a standard herbicide to control weeds and grass, and covered with Class 5 gravel. Future growth of weeds and grass through the gravel surface

will be spot treated with herbicide as needed. I believe we can get this accomplished by November 1 as you suggested.

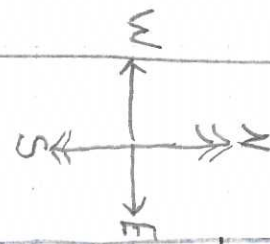

I am very hopeful that you will approve our request so that we can afford to make the proper changes.

Thank you again for your consideration.

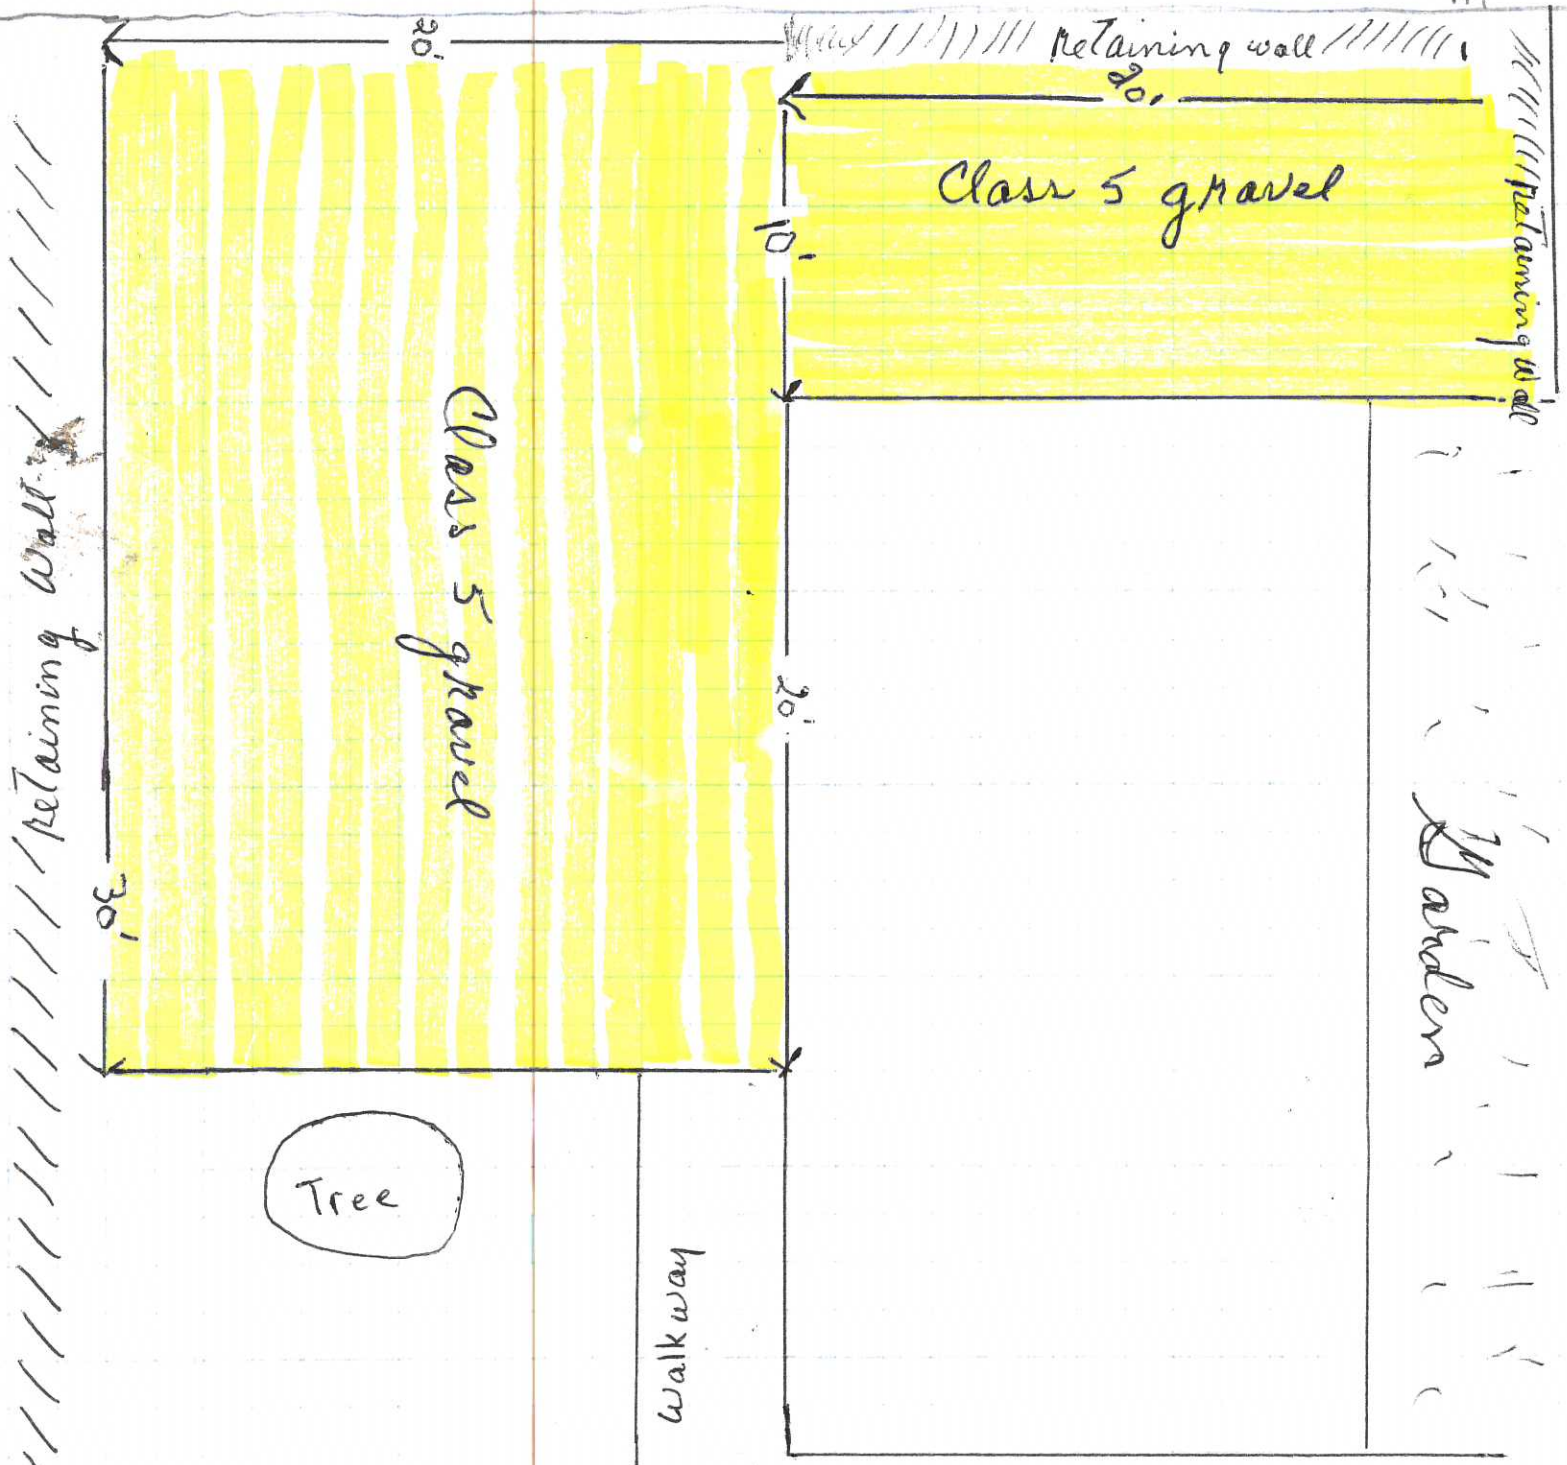

Very sincerely yours,

Patricia Henry
