Hello Lisa. I am again asking for your assistance on this matter. It is clear to me that we should not be assessed anything for the removal of the graffiti in question as it is not on, nor is it our property. See the attached photos which show the graffiti in question on the corner of 2333 Hampden and Bradford. Once again, this is something that I discussed in August or early September with someone in the office from which we received the original notice to clean it up. The person whom I talked to (I don't remember her name) said it was clear that we should never have even received that notice.

I am out of town next week, so I can not attend the public hearing. However, myself, nor anyone else from our company, should not have to attend as it should be quite clear that a mistake was made by the city and we should never have been assessed in the first place. Would you please do what you can to get this matter cleared up for us? I will appreciate it very much.

Lisa:

The photos which I intended on my previous email to you did not transfer properly. I have attached them here.
