

Staff Report
Restoration Schedule Charges
April 13, 2016

On January 27, 2016, the City Council adopted an Ordinance amending Chapter 87 of the Legislative Code to provide for the use of a schedule of charges to reflect street restoration work costs. The Code amendment became effective February 26, 2016. Amended Section 87.13(b) of the Saint Paul Legislative Code stipulates that this schedule of charges be established in the same manner as water rates; by city council resolution following recommendation by the Board of Water Commissioners and a public hearing.

Staff performed a statistical analysis of past costs and from that analysis determined that the attached schedule of charges would reflect those costs.

On April 12, 2016, the Board of Water Commissioners adopted Resolution No. 16-647 which approved said schedule of charges and requested that the city council establish the charges following a public hearing.
