Amending Chapters 61, 63, 65, and 66 of the Saint Paul Legislative Code pertaining to establishing accessory dwelling units as a permitted use in the R1-RM2 and T1-T3 zoning districts within one-half mile of University Avenue between Emerald Street and Marion Street (amended to Lexington Parkway).

Jamie Radel, Planning and Economic Development, gave a staff report including the definition of accessory dwelling unit (ADU), benefits of ADUs, the process taken so far, and a review of the proposed ordinance requirements. She said the majority of comments received for the Planning Commission public hearing came from people living outside the area affected by the changes, and the comments were evenly split between for and against. She said the Planning Commission forwarded the ordinance to the City Council with a request to review the issue in four years.

Council President Stark thanked Ms. Radel for her work over the long process. He asked Ms. Radel for clarification of the comments on the ordinance. Ms. Radel said there were three groups of comment: a group supporting the Planning Commission recommendation, a group opposed to all ADUs, and a group supporting the District 12 task force report which was parallel with the Planning Commission recommendation with the exception of the ability to have a detached ADU or the traditional one with an apartment over the garage. Council President Stark said it was important to note that the people within the affected area were generally supportive and the opposition was coming from north St. Anthony Park. Ms. Radel said that was correct and fairly unique in a zoning study. Council President Stark said there had been three years of work on this issue in St. Anthony Park independent of this process, and he expressed appreciation for their work. He said it was his intention to continue the public hearing for five weeks to allow time to address internal questions from DSI and external questions received by Councilmember Thao from people who wanted a little more time to learn about the implications of the ordinance for area residents.

Councilmember Thao asked whether Heritage Preservation criteria would have to be met and whether this decision would set precedent for the rest of the city. Ms. Radel said the question about precedent would be a policy direction and up to the Council. She said historic preservation requirements would pertain to homes in historic districts.

*In opposition:
James Stout (2223 Scudder)
David Fan (2112 Hoyt Avenue West)
Keith Hovland (1467 Chelsford Street)*

*In support:
Leslie Everett (1988 Brewster Street)*

Council President Stark reiterated his intention to continue the public hearing, and said he appreciated the testimony. He said he agreed with the idea that ADUs were going to be expensive to add to existing homes, especially detached ADUs. He said the flip side of the argument that it was not worth changing zoning if ADUs were going to be rare, was that there was no harm in providing the opportunity in that case. He said this allowed the same number of people on the lot but in separate units, and accessory structures of approximately the same size, such as garages, were already allowed. He noted that all District 12 task force participants were north St. Anthony residents, and this ordinance only affected south St. Anthony. He said he felt it was important to try these things in an area and see how they worked and then come

back and re-assess. He said he'd generally been supportive of ADUs and the community was generally supportive as well, with the only debate about whether to allow detached ADUs. He moved to continue the public hearing for five weeks.

Council President Stark moved to close the public hearing. Yeas - 6 Nays - 0 (Councilmember Bostrom not present for vote)

Council President Stark said it had been quite a process and they'd gone through multiple iterations, and what was before the Council was the best option of difficult choices. He said Area 16 was small, and this was trying to balance the needs of all residents while understanding the apartment building was built without parking at a time when there weren't as many cars. He said one of the things that would be looked at as part of the citywide permit parking study, was whether it made sense to combine small districts so there were similar rules across the board. He said he would move support of resolution, understanding it was imperfect but understanding they'd done the best they could to balance all of the interests in the area. He said they were helping Mr. Bergson (who had appeared at the previous public hearing on the issue) to get a disability space in front of his home.

Councilmember Prince asked whether there was any opportunity to look into further mitigation on Dayton as suggested in testimony. Council President Stark said within the parameters of the current permit parking system this was as close as they could get to mitigating all of the uses.

LEGISLATIVE HEARING ITEMS FOR DISCUSSION

- 28 **RLH CO 16-19** Amending Council File RLH CO 15-11, adopted August 5, 2015, to grant Sia Lo, Lo Law Firm, on behalf of Ying Vang and Chee Xiong, an additional extension for property at 2153 BEECH STREET.
- Legislative Hearing Officer Marcia Moermond said the issue was a wall and had been heard by the Council a year ago. She said two sets of orders went to adjoining properties, and both property owners provided documentation that they didn't own the wall and the matter was in litigation. She said she had received a request from Sia Lo that the deadline be extended until the August 18 settlement conference and possible try. She recommended granting the extension to accommodate the settlement conference and possible October trial, with the goal of beating Minnesota winter with the fixing of the retaining wall. She said the neighbor objected to the extension. In response to a question from Council President Stark she said her recommendation was to grant an extension to December 1. She said she had talked it over with Councilmember Prince who also had some thoughts on the matter. Councilmember Prince said she would wait with her comments.*
- In opposition:*
Thomas Brace (2157 Beech Street) said he was the litigant against the parties residing at 2153 Beech Street. He said he had knowledge of who owned the wall by

speaking to the previous owner of 2153 Beech Street who said it was his (the previous owner's) wall. Mr. Brace said the neglect of the wall started to cause damage to his property. He said he and the neighbor had used the same surveyor to determine the property line, and Ms. Moermond had determined that the closest the wall came to his property was 1 foot. He said there was never any proof that the wall was on his property, the only contention was about tiebacks and deadmen used for reinforcement. He said he had unearthed the tiebacks and deadmen, and it used 10 ft³ of his property for a 500 ft³ wall. He said the only purpose was to keep the wall from falling over. He said he had a ton of data, and was an engineer and very meticulous, and everything was black and white to him. He said he'd never been belligerent and had tried to extend a helping hand with the problem but they'd thrown nothing but stalling tactics. He said the original deadline was June 8, 2015, and Ms. Moermond had seen fit to grant a year after the appeals were filed for them to solve their civil matter. He said to him it wasn't a civil matter as the property line and wall were there, and everyone who came out to look at it wondered what the issue was. He said their lawyer had a penchant for stalling, and the rain was washing it away and was continuing to undermine his garage foundation and driveway. He said he hoped the Council had the mettle to stand behind their earlier decision.

Councilmember Prince said she appreciated the frustration about the delays, but now that it was in litigation the Council was not in a position to act. She said she would like to move the deadline up to October 15, in hopes that if the settlement conference was successful it would allow for the work to be done within a couple of months, or it could come back to the Council then for further consideration.

Councilmember Prince moved to close the public hearing. Yeas - 7 Nays - 0

Councilmember Prince moved to adopt the resolution as amended.

76 RLH TA 16-209

Ratifying the Appealed Special Tax Assessment for Property at 419 WHITALL STREET. (File No. J1609A, Assessment No. 168525)

Legislative Hearing Officer Marcia Moermond said this was a tax assessment for a clean-up. She said it was a good two week period between the orders and the Parks crew going out to do the clean-up, and the cost of the clean-up was \$478 including fees. She said the appellant spent most of the time in Legislative Hearings talking about his frustration with illegal dumping. She said staff had suggested that erecting a fence might mitigate some of the problems, but in hearings she concerned herself with whether the property owner was notified and whether the City did the work. She said the culpability, going after a third party, wasn't something they had a tool for in the nuisance abatement process. She showed a video of the clean-up.

In opposition:

Gerald Frisch (2350 W. 7th Street), attorney, said he owned the lot under the title of Phalenview Real Estate, LLC, and had acquired it from the Wybierala estate. He said the property was located to the west of the residence of Thomas Wybierala, and the property line was five feet from the west of his home and seemed Mr. Wybierala had the capacity to extend the property line onto his (Mr. Frisch's) property. He said it was a continuous problem, and he had installed temporary fence in winter and Mr.

Wybierala removed the fence. He said he didn't object to the assessment as it currently was but was an ongoing assessment because there was continuous dumping on his property. He said he was an absentee landowner doing his best to keep property clean and safe. He said he had used many means to try to address the issue with Mr. Wybierala, and he was very frustrated and looking for some help. He said he could be a good citizen but his ultimate remedy would be to walk away from the property and not maintain it and not pay the taxes. He said his original plan was to have it rezoned for an apartment building that he thought would service the healthcare facility a block away on Phalen Boulevard, but was not able to get enough signatures for the rezoning.

Councilmember Brendmoen moved to close the public hearing. Yeas - 7 Nays - 0

Councilmember Brendmoen said she understood the frustration. She said illegal dumping was a problem and the City had had issues with the Wybieralas and garbage and dumping. She said keeping it as a big vacant lot was not the solution, and it was time for Mr. Frisch to move ahead with his plans for development. She said there were options for obtaining a rezoning without enough signatures, and the property was an attractive nuisance for dumping. She said what was before the Council was the garbage, which Mr. Frisch hadn't disputed per se, but if Mr. Frisch called her office maybe they could put their heads together to work on a solution. She moved to approve the abatement fees. Mr. Frisch said he didn't object to the fees but wanted to move forward with some kind of plan. Councilmember Brendmoen said she would love to do that.

Council President Stark said he was not sure whether, with rezoning, it was the case that there were procedures for moving forward without enough signatures. Councilmember Brendmoen said it was an interesting lot and she was willing to dig in.

Council Meeting Information

The City Council is paperless which saves the environment and reduces expenses.

The agendas and Council files are all available on the Web (see below).

Councilmembers use iPads to review the files during the meeting. Using the iPad greatly reduces costs since most agendas, including the documents attached to files, are over 1000 pages when printed.

Web

Meetings are available on the Council's website. Email notification and web feeds (RSS) of newly released Minutes, Agendas and Meetings are available by subscription. Please visit www.stpaul.gov/council for meeting videos and updated copies of the Agendas, Minutes and supporting documents.

Cable

Meetings are live on St Paul Channel 18 and replayed on: Thursdays at 5:30 p.m., Saturdays at 12:30 p.m., and Sundays at 1:00 p.m. (Subject to change)
