**Think Before You Click: This email originated outside our organization.**

Good morning Ross,

I wanted to detail my efforts in collecting signatures for ROK Eatery's petition.

We attempted to gather signatures from our surrounding neighbors by notifying the Schmidt Artist Lofts management and community leaders of our intentions, along with materials to send to their tenants. We also made several attempts to notify our other neighbors in the 300' bubble. We were able to collect a handful of signatures, primarily from our closest, and most affected, neighbors over the course of about a month of which all were very excited to have a bit of energy brought to the area.

We did our best with the time available!

Thank you,  
Travis Wycislak  
ROK Eatery Owner
