Vacant Building Registration

Other (Fence Variance, Code Compliance, etc.)

A car fire started a corner of house on fire, which was immediately put out by the fire department. I timely filed the Vacant Building Registration Form stating that I planned to rehabilitate the house. The outside siding on the corner was burned along with some of the outside boards under the siding, but mostly smoke damage inside. The outside is now ready for inspection prior to putting on the new siding, which I had to special order in 5" to match the current siding because only 4" was in stock. Additional comments ->

Revised 8/17/2023

Additional Comments

I ~~did~~ not have replacement cost insurance so the insurance company depreciated everything and gave me $\frac{1}{2}$ of what the estimated cost would be for restoration. I pulled a permit myself and hiring friends to help me who are capable and know what is required to meet codes for the city. Anyway the exterior is ready for inspection and will call the inspector this week prior to putting on the exterior siding.

What is really needed is a 6 foot Fence completed by the State of Mn to close the gap inbetween 912 Fry and two existing fences now there for Pierce Butler Route where all the wife ~~rape~~ homeless people and theirses come thru which causes it to not be as good of neighborhood as it should be. As an individual I can't make the State do anything, but maybe the City of St Paul could. I have been there almost every day and I have seen them go thru the unfenced area even in the day time.

The place (house) is not very ~~unseen~~ ^{vacant} because I am there almost everyday working, even as late as 2 or 4 am parating or doing something inside

Sincerely
Francis Crowley
