375 Jackson Street Suite 220
Saint Paul, MN 55101-1806

Dear Barb,

I am writing to you regarding the sound variance that has been requested on October 7, 2017, from 10:00am to 10:00pm. Landmark Center has two weddings scheduled on this day. One is a wedding ceremony in our north facing courtroom, with large windows that overlook St. Peter Street and Hamm Plaza. It is scheduled at 2:30pm. The sound check could impact this ceremony if it runs late.

The second event is a wedding reception in our Cortile (main atrium) space from 4:30pm – 12:00am. Again, there are large windows along the side of Landmark Center. Amplified music bounces off the Lawson Commons/Infor building, so facing the stage away from Landmark Center will not solve this issue.

Our Executive Director has informed the organizers of this event that live street music will impact the activities going on in the building, especially the wedding ceremony. We request that the sensitivity of our clients' activities be considered in the planning for sound at this event.

Sincerely,

Betsy Lanegran
