Good morning Tom,

The renovation project at the Degree of Honor building has extended too long. There was an agreement between the city and your company to reopen the skyways by a specific date – that date has long past. Extensions were given due to the electrical fire in the lower level and the excessive asbestos found in the building. However, we have not received a commitment for a specific date to reopen the skyway. Countless requests were made to you without a response.

I do not have the authority to delay legal action towards this violation. If you have questions regarding this issue please contact myself or Tom Ferrara.

Regards,

The Most Livable
City in America
