APPLICATION FOR APPEAL – 684 Rose Avenue, St. Paul, MN 55106

In 2007, the Payne Maryland Development, LLC was founded by Merrick Community Services and Arlington Hills Lutheran Church (two non-profits) in a spirit of cooperation with the City of St. Paul to acquire and hold four duplex properties on Rose Avenue near Greenbrier, in anticipation and support of the highly anticipated Payne Maryland Project. Two of these properties (670 and 676 Rose Avenue) have already been purchased by the City of St. Paul from the LLC and demolished for this purpose.

The LLC was never in this project to be long-time landlords. This was to be a short-term proposition. Consequently, the tenants in the remaining two duplexes, 680 and 684 Rose Avenue are on month-to-month leases. We continue to keep the duplexes in good repair. We had a Fire Inspection at 680 Rose Street several months ago and every item brought to our attention was corrected and brought in to compliance.

In this latest inspection by the Fire Inspector (Reference #1144343), we have completed most all of the items listed for correction. When Mr. Benjamin Ellis came back for the ORSAT reports completed by Nasseff Mechanical, it turned out that neither of the two furnaces at 684 Rose Avenue could be adequately tested due to the fact that the heat exchangers in both furnaces are cracked. This means that both furnaces will need to be replaced and we estimate the cost to be between \$10-\$15,000. We currently are in negotiation with the City of St. Paul to resolve these two remaining duplexes adjacent to the slated demolition of the Arlington Hills Parks and Recreation Center and soon to be constructed on the site a new library and St. Paul Parks and Recreation building ("Payne Maryland Project"). If this issue is not resolved in the next two months, we will be forced to give notice to evict the two tenants at 684 Rose Avenue.

If you have any questions, you can reach me at my place of work: Arlington Hills Lutheran Church, 1115 Greenbrier Street, St. Paul, MN 55106 - 651-771-5501 – W

Mrs. Larsen,

Attached are the ORSAT reports for the 2 furnaces at the above address. These reports can not be approved at this time. According to the reports, neither furnace could be adequately tested due to repairs needing to be made to the units. So the repairs to the units will have to be made and acceptable reports need to be submitted to our office. The order for the reports will remain outstanding for the building's Certificate of Occupancy until we receive satisfactory reports. The reinspection was previously set for 7-30-12 at 11:00am, which is the extent of the time I can legally provide. If more time is needed for this, please contact the appeals office and file an application for additional time. Thank you for your cooperation and have a great day.
