

I'm Here tonight to talk about my lively hood.

All I've ever wanted is a fair chance.

I was compliant with the fire inspector in his requests on what need to be changed on the property. I did it all in a Reasonable time.

I had the fire inspector's word on if I got the kids out of the house he would let me keep my student Rental License. I did what he asked yet he didn't keep his promise.

for the over occupancy, ^{claim} If came to my attention via Email. The fire inspector never Actually checked all the rooms of the property to actually see it being over occupied nor did he check the property again when my Girlfriend called in the complaint.

~~we~~ We know why the neighborhood is in up roar over this issue. ~~we~~ It relates to a party called "Tour de Franzia" which USTI can vouch that my property was Not apart of this Party.

But Ever since this party, the neighbors have been extremely active in trying to get college students out of the community (or that block).

I've had numerous fabrications told about my property since this issue arose. Condition of the property, Parties, Parking and so on. The fire inspector even went to a District 13 meeting to tell a false truth which he claimed I said about an issue I was completely unaware of back in 2016. This same lie was then spread by the zoning inspector at my board of zoning appeals. This lie at both gatherings persuaded minds. To not even give me a chance to explain my situation. which left me being attacked.

If my property is so bad, And such a party house, why haven't police written any tickets? ^{in 3 years} No Arrests?

Why are the houses to left and right of mine falling a part? trees growing through them, but yet not a single complaint made about either one?

Today, before this meeting I stopped at my Rental to view the front's of the houses. yet many of them were not shoveled. Yet, Every snow fall my house gets a complaint.

The fact of the matter is this: We all

know my house isn't the problem. But this aside everyone is portraying to try and make an example out of me. The owner occupied homes simply want all college students gone. And they don't care if it's illegally taken from me or not.

Again, The fire inspector ^{stated he} never actually ^{physically} viewed the property ^{rooms} on either date. ~~the fire inspector stated~~

~~was in emails he never needed to physically view~~

~~All property~~

Then He went to district 13 and painted the situation with false fabrications.

Then The Zoning inspector did the same thing.

All of these actions are unjust and will cost me my only income. I urge you to do the right thing and reverse this decision and give me my student housing rental license back.
