Resolution to Support the Expansion of Liquor License at Agelgil Ethiopian Restaurant, LLC

Whereas the Highland District Council's Community Development Committee met with the applicant and members of the community to discuss the expansion of the liquor service area and an upgrade to a full liquor license at Agelgil Ethiopian restaurant, 2585 West 7th Street on July 16th; and

Whereas the owners will keep the current business plan, operating hours and the City has said their license is in good standing and DSI does not have any complaints; and

Whereas the neighbors have requested that the fence between the alley and the restaurant be repaired and maintained, work to screen the garbage from public view, provide signage for customers to explain where they should be parking and that when they leave remind them they are parked in a residential neighborhood; and

Whereas this is the first time the owners of the establishment have heard any of these complaints, they will work to reach out to the neighbors, and develop a relationship; therefore

Be It Resolved that the Community Development Committee of the Highland District Council recommends approval of the expansion of the liquor service area and an upgrade to a full on sale liquor license at Agelgil Ethiopian restaurant, with the intent that the owners work in good faith with the surrounding neighbors to address their concerns.

Approved July 16th, 2019

By the Community Development Committee of the Highland District Council
