### **Old Business:**

#### **889 Iglehart Avenue-**

Chair Miller announced that the Board would now move to the old business portion of the agenda and asked Josh Ladd to give an overview of where the supportive housing requests were at. Josh Ladd informed the Board that Minnesota statute 462.357 and Saint Paul's ordinance section 61.601 require

that all findings be met in order to grant a variance and that the board cannot grant a variance without all findings being met. He mentioned that variances are granted with respect to a piece of property and not with respect to the personal needs, preferences, circumstances of the property owner. He mentioned that the separation requirement applies to all parcels within 1,320 feet from the congregate living facility, and the burden is common to the surrounding area. He mentioned that a legislative change would be necessary, rather than a variance. He mentioned Familystyle of St. Paul v. City of St. Paul, which explained the policies behind the distance requirement that came from the state. He stated that the goal is to integrate the mentally ill into mainstream society and that granting these requests could create clusters or pockets where people are living with disabilities are separate and segregated from their mainline disabled peers. He stated that each application was a case-by-case basis.

Josh Ladd was interrupted when a member of the public began speaking. Josh Ladd explained that each case is evaluated individually, and each applicant is able to speak when their case is called.

Schweitzer asked what occurs if the board fails to act upon the case. Josh Ladd stated that if the resolution fails, it is a denial, per MN Statutes 15.99.

Josh Ladd stated that it would be best to give a definitive answer which would give an opportunity to appeal.

The meeting was interrupted by a member of the public, Mark Schwartz, applicant for 438 Daly Street. Josh Ladd stated that he was laying the legal groundwork and that there would be an opportunity for the applicant to plead their case. Josh stated that the variance must meet the six findings

Schweitzer asked how much the fee is to appeal and how long that would take.

Eide explained that the appeal fee is \$462.00 and the decision can be appealed within ten days.

Schweitzer asked how much time City Council had to make a decision. Eide responded that July 9th is the deadline for most of the cases.

Schweitzer clarified that if the board chooses to approve, then it could cause potential legal issues, lawsuits, bad prescient, however, if choosing to deny, it would create expenses for the applicant, stress, and would be reliant upon the City Council. Schweitzer asked what occurs if Council does not act within the deadline.

Josh Ladd responded that if they do not make a decision within 60 days or 120 if extended, then it is approved by a matter of law.

Schwartz noted the loss of beds in the community. Schweitzer stated that the board members are volunteers and did not sign up to be in this difficult situation.

Josh Ladd stated that this was not a denial and that each case would be heard separately. He also noted that this meeting was being recorded.

**889 Iglehart Avenue (25-020223) – Old Business**

David Eide noted that this case already had a public hearing in front of the Board and is back because it was laid over. He noted that the staff recommendation was denial based upon findings 3, 4, and 6. Two letters were received opposing the request and no recommendation was received from District 8 – Summit-University Planning Council.

Chair Miller asked for discussion or a motion. Martinson asked a question. David Eide addressed the question. Chair Miller asked David to project the staff findings for the case.

Chair Miller asked for a motion.

Schweitzer moved to lay over the matter indefinitely. Josh Ladd stated that this cannot happen.

Martinson compared sober homes and supportive housing. Josh Ladd stated that the board cannot act upon will alone. Miller stated that the owner did not bring on this situation themselves.

Josh Ladd stated that the decision must be based upon facts and findings and not will alone. Chair Miller noted that the decision would likely be appealed. He stated that food service would likely not alter the essential character.

Porter asked if any correspondence was received from the neighborhood. David Eide stated that he spoke to the executive director of the District Council and that they elected not to comment.

Dayton stated that she had a different recollection of this case that there was a motion that failed.

There was discussion about action at the last meeting for this case.

David Eide examined the transcript from the April 14th meeting and found the portion where Schweitzer had moved approval of the variance request. On April 14th, Schweitzer had stated that staff had erred in findings 3, 4, and 6. That motion was seconded by Dayton and had failed in a 3-2 vote. There was then a separate motion by Dayton to move denial, in alignment with the staff recommendation. There was not a second, so that motion had failed.

Schweizer stated that he would repeat that motion to approve the request, with the same rationale as the April 14th motion. Dayton seconded. Josh Ladd stated that the motion was not supported by case law. Chair Miller asked Maxine Linston to conduct a roll call vote. Dayton, Porter, Martinson, and Miller voted against, and Schweitzer voted for the motion. The motion to approve the variance request failed.
