Mai & Marcia,

Attached is the correction notice being sent for the property at 482 Earl St and photos of the basement bedroom ceiling that had been appealed on December 20, 2011.

My direction and understanding was that I was to take photos of the basement bedroom ceiling and submit them to you for consideration of granting the appeal for the basement bedroom ceiling height.

Upon my re-inspection on 2-2-2012 the basement was not currently being used as a bedroom; however, the tenant and property manager would like to use it as a sleeping area if granted a variance.

Let me know the decision on this.

Thanks.
