In double-checking the language, I have a couple of minor changes: the garbage behind the garage has no doubt already been taken care of, along with the lawn mowing. However, your deadline for these orders is this Friday, August 12. If these items are of concern then, a code enforcement inspector will write a summary abatement order and the City will do the work late next week. This should give you plenty of time, and as I've said, I'm sure you've taken care of these relatively simple items already.

Mr. Hatchett, the work plan is acceptable. These deadlines will be in front of the City Council next Wednesday.
Sincerely, Marcia Moermond

Hello: Marcia Moermond

Please note the attached copy of my FIRE INSPECTION CORRECTION NOTICE is marked up to indicate the amount of time I will need to have these deficiency's corrected.

Also I am currently waiting on a few bids for the work on the driveway and one of the company's may have a financing option that would allow me to get the work done this year.

So thank you for the opportunity to submit my plan/timetable and I will be waiting for your response.

Ray Hatchett
